Method of Study:

Indian Islamic College teach about only Islam and Islamic issues. Their syllabus is fully based on Arabic and Persian but our syllabus is combination of Islamic issues Arabic, Persian and Modern Education also. We teach the Islamic issues by priority, specialization Arabic and Persian seeing the requirement of English and other subjects with the necessity of Languages.

The method of our teaching is fully based on college pattern with the priority of our Islamic need and respects. By this method we have divided our full time of teaching in part of eight periods and in this 8 period we have mentioned the full syllabus by a system of books and subjects. When the peon rings the bell our teacher goes to teach their subject.

In this Jamia there is a combination of Deeniyyat (Hadith, Tafseer, Logic, Philosophy, etc.) and Asriyyat (Modern Education like English, Mathematics, Computer Science, Science, etc.)

Our Jamia has a well-equipped computer lab, which is very advanced in systems having 33 computers. Our students have a compulsory period to computer theory and practical. We have trying to fill the gap between Indian modern education and Islamic education method by our Islamic point of views.
